Docket No. T-03289A-08-0487
Data Request Responses

1. Statement setting forth the reasons for which a rate increase is required.

Response:

Verizon Long Distance LLC (VLD) is authorized to provide long distance services to presubscribed Residential Customers on a nationwide basis. The Company seeks to increase the Plan B Service (marketed as Best Times Plan) Monthly Recurring Charge maximum tariffed rate from \$5.95 to \$11.95 and increase the Plan B Service Monthly Recurring Charge current rate from \$5.95 to \$6.95.

Plan B Service is a competitive standalone long distance service offering for residential customers. The Company regularly reviews and evaluates its services, including the rates, and value of the services. These reviews may lead to changes in the rates and/or terms of a particular service. The proposed rate increase is necessary for the Company to meet and respond to current business and market conditions.

2. Is there a cost based justification for the rate increase (i.e., is the rate increase necessary to account for a change in your costs)? If yes, please describe the change in your costs. Provide calculations and data to support your cost justification.

Response: No, this rate increase is market driven and not cost-based.

3. A schedule of current rates and proposed rates and the additional revenues to be derived from the proposed rates.

Response:

Current Maximum MRC	Current MRC	Proposed Maximum MRC	Proposed New Current Rate
\$5.95	\$5.95	\$11.95	\$6.95

Additional revenues: Approximately \$44.00 per month based on estimated number of customers in AZ on this plan.

4. An affidavit verifying that appropriate notice of the proposed rate increase has been provided to customers of the service.

Response: See Exhibit C.

5. A copy of the customer notification you sent to your customers.

Response: See Exhibit A, this is the same notice that was provided with the original filing in September, 2008.

JFB1-5 For the maximum Monthly Recurring Charge to residential customers in the Best Times Plan (Plan B Service) the Company proposes to increase, please provide:

- the number customers impacted (provide estimate)
- the total annualized revenue associated with all customers under the existing current and maximum rates (provide calculation of estimate)
- the total annualized revenue associated with all customers under the proposed current and maximum rates (provide calculation of estimate)

Response:

- Approximately 44 customers are affected
- $44 \times \$5.95 \times 12 = \$3,141.60$ (both current rate and current maximum are \$5.95)
- $44 \times \$6.95 \times 12 = \$3,669.60$ (proposed current rate is \$6.95)
- $44 \times \$11.95 \times 12 = \$6,309.60$ (proposed maximum rate is \$11.95)

JFB1-6 Please explain if the expected effect of this filing on the Company's Arizona revenues is less than 1 percent, from 1 to 5 percent, etc. Show a breakdown of the plan's increase in Arizona revenue by dollar amount and percentage of increase. Show all calculations including the number of residential customers that will be impacted by the maximum Monthly Recurring Charge in the Best Times Plan (Plan B Service).

Response:

The expected increase in annual AZ revenues is less than 1%.

customers: 44; increase in annual revenue: $44 \times \$1 \times 12 = \528 ; 2009 AZ total revenue: \$114,012

$$\$528/\$114,012 = 0.46\%$$

The impact of the Plan B MRC increase will increase Plan B MRC revenues from 2.75% to 3.2% of AZ revenues:

The current Plan B MRC revenues are 2.75% of annual AZ revenues:

customers: 44; current MRC revenue: $44 \times \$5.95 \times 12 = \$3,141.60$
 $\$3,141.60/\$114,012 = 2.75\%$

The planned Plan B MRC revenues are 3.2% of annual AZ revenues:

customers: 44, planned MRC revenue: $44 \times \$6.95 \times 12 = \$3,669.60$
 $\$3,669.60/\$114,012 = 3.2\%$
